CONTENTS

Volume 65 (1989)

REVIEW ARTICLE

Plant gene expression in early stages of *Rhizobium*-legume symbiosis
by T. Gloudemans and T. Bisseling (Wageningen, The Netherlands) ..... 1 – 14

PHYSIOLOGY AND BIOCHEMISTRY

Regulation of metabolism by intracellular pH: inhibition of photosynthesis by weak acids in intact cells of *Chara corallina*
by R.J. Reid, F.A. Smith, A. Soden and A.R. Turnbull (Adelaide, Australia) ..... 15 – 23

An effective purification procedure of amylase and trypsin inhibitors from wheat flour; isolation of a new water-soluble protein
by L. Carrano, G. Nitti, V. Buonocore, C. Caporale amd E. Poerio (Naples and Viterbo, Italy) .... 25 – 31

Multiple forms of glutamine synthetase in nodules of tropical legumes inoculated with *Bradyrhizobium* spp. and *Rhizobium fredii*
by F.M. Robert (Honolulu, HI) ..... 33 – 38

Localization and secretion of β-1,3-glucanase of cultured carrot cells
by F. Kurosaki, Y. Tokitoh, M. Morita and A. Nishi (Toyana, Japan) ..... 39 – 43

Polyamines and somatic embryogenesis in carrot. I. The effects of difluoromethylornithine and difluoromethylarginine
by C.A. Robie and S.C. Minocha (Durham, NH) ..... 45 – 54

Isolation and properties of protoplasts from endosperm of developing wheat grain
by P.L. Keeling, S. Baird and R.H. Tyson (Slater, IA) ..... 55 – 62

GENETICS AND MOLECULAR BIOLOGY

Transformation of *Lycopersicon peruvianum* and *Lycopersicon esculentum* mesophyll protoplasts by electroporation
by C. Bellini, M.C. Chupeau, P. Guerche, G. Vastra and Y. Chupeau (Versailles, France) ..... 63 – 75

Changes in RNA, protein and translatable messenger RNA synthesis and accumulation during adventive organogenesis in somatic tissue cultures of *Solanum carolinense*
by T.L. Reynolds (Charlotte, NC) ..... 77 – 85

Characterization of cDNA clone coding for nodulin-45 from yellow lupin (*Lupinus luteus*)
by K. Szczyglowski, L. Boron, U. Szybiak-Strózycka and A.B. Legocki (Poznan, Poland) ..... 87 – 95

CELL AND TISSUE STUDIES IN VITRO

Protoclonal variation in the seed progeny of plants regenerated from rice protoplasts
by R. Abdullah, J.A. Thompson, G.S. Khush, R.P. Kaushik and E.C. Cocking (Seremban, Malaysia, Manila, Philippines, Bracknell and Nottingham, U.K.) ..... 97 – 101

Changes in the molecular organization of the mitochondrial genome in albino tissue cultures derived from wheat pollen embryos and in plants regenerated from these cultures
by C. Aubry, J. De Buyser, C. Hartmann, Y. Henry and A. Rode (Orsay, France) ..... 103 – 110

Dedifferentiation of *Asparagus officinalis* L. mesophyll cells during initiation of cell cultures
by E. Paul, K. Harikrishna, O. Fiorioni and J. Draper (Leicester, U.K.) ..... 111 – 117

Determination of ploidy level in "Mitchell" *Petunias*
by K.K. Kamo and R.J. Griesbach (Beltsville, MD) ..... 119 – 124

Evidence for the presence of a second conditioning factor in plant cell cultures
by D. Bellincampi and G. Morpurgo (Perugia, Italy) 125–130
Book Reviews 131–134

PHYSIOLOGY AND BIOCHEMISTRY
A membrane-associated auxin-binding site from chickpea (*Cicer arietinum* L.) epicotyls
by R. Kaur and H.C. Kapoor (New Delhi, India) 135–141
Inhibition and activation of oat leaf calcium-dependent protein kinase by fatty acids
by J. Minichiello, G.M. Polya and P.J. Keane (Bundoora, Australia) 143–152
Tonoplast ATPase proton pumps in wheat roots
by G.M. Magyar, R.G. Stout, P.R. Callis and S.A. Williams (Bozeman, MT) 153–160
Chemical inactivation and active site groups of the phosphoenolpyruvate-phosphatase from germinating mung beans (*Vigna radiata*)
by O.P. Malhotra and A.M. Kayastha (Varanasi, India) 161–170
Behaviour of crown gall tumor cells of sunflower with respect to the biosynthesis of ent-kaurene
by Y. Gafni (Bet Dagan, Israel) 171–175
Isolation of photosynthetically active protoplasts and intact chloroplasts from *Phaseolus vulgaris*
by J. Kobza, B.d. Moore and J.R. Seemann (Reno, NV) 177–182
Changes in the level of enzyme activities involved in lignin biosynthesis during the temperature sensitive resistant response of wheat (Sr6) to stem rust (P6)
by B.M. Moerschbacher, U. Witte, D. Königs and H.-J. Reisener (Aachen, F.R.G.) 183–190
Diurnal and circadian fluctuation of malate levels and its close relationships to nitrate reductase activity in tobacco leaves
by M.-D. Deng, T. Moureaux and T. Lamaze (Versailles, France) 191–197
The chemical regulation of polyisoprenoid synthesis in *Parthenium argentatum* with 2-(3,4-dichlorophenoxy)-triethylamine
by C.R. Benedict, G.A. Greenblatt, S. Madhavan, M.A. Foster, E. Hayman and H. Yokoyama (College Station, TX) 199–205

GENETICS AND MOLECULAR BIOLOGY
Extrachromosomal forms of CLV DNA1 in transgenic plants are inherited by symptom-free progeny
by P. Meyer, I. Niedenhof, I. Heidmann and H. Saedler (Köln, F.R.G.) 207–216

CELL AND TISSUE STUDIES IN VITRO
Somatic embryogenesis and plant regeneration from cultured mature and immature embryos of *Paspalum notatum* (*Gramineae*)
by O.A. Bovo and L.A. Mroginski (Corrientes, Argentina) 217–223
Improved androgenesis of winter cultivars of *Triticum aestivum* L. in response to low temperature treatment of donor plants
by J. Simmonds (Ottawa, Canada) 225–231
Somatic embryogenesis in slash pine (*Pinus elliottii*) from immature embryos cultured in vitro
by S.M. Jain, N. Dong and R.J. Newton (College Station, TX) 233–241
Cytokinin and fusicoccin effects on calcium transport in *Amaranthus* protoplasts
by D.C. Elliott and Y. Yuguang (Bedford Park, Australia) 243–252
Desiccation tolerance of alfalfa (*Medicago sativa* L.) somatic embryos. Influence of abscisic acid, stress pretreatments and drying rates
by T. Senaratna, B.D. McKersie and S.R. Bowley (Guelph, Canada) 253–259
Subject Index Volume 65 261–264
Author Index Volume 65 265–266
Contents Volume 65 267–268
